THE PRAISE OF SPLENDOR

Rosewood, olive ash, maple and birch briar draw a delicate floral inlaid frieze.

Stately arches, gilded capitals and majestic woodworks embrace the gaze on each side.

And the golden carved leaves seem to extend a blossom to the air.

Collection Versailles by Socci revives the opulence and the myth of the Roi Soleil's Palace creating a great ambience where time is outstanding among past and present, the material and the sublime, dream and reality.

Versailles. A neverending elegance.

STUDY

The King shut himself in to study the reports of the secret agents he maintained abroad and to write the instructions for them. It was thus the seat of the Secret du Roi, this private diplomacy that the sovereign conducted on the sidelines of his official foreign policy.

DINING ROOM

On special occasions, royal tables were set up with baskets of flowers, pyramids of fresh and rare fruits served on silver plates and Sevres porcelains. Guests and courtiers could refresh themselves with splendid buffets of gourmet cakes and confectionery.

LIVING ROOM

The parlour was the place of entertainment and refreshments, where the guests would taste coffee, wine and liqueurs. After the meal the King would sit comfortably and show the silverware vases, porcelains, gems and medals which were exhibited here to celebrate his glory and power.
